Mr. F. L. Conner,
City Engineer, City.

Dear Sir:

Replying to your letter of Feb. 3rd, relative to complaint of Mr. Frank Loughran in connection with the closing of Aston Street between Biltmore Avenue and Church Street and the opening and ... of South Lexington Avenue from Aston Street to Hilliard Avenue.

I am attaching hereto blueprint map of South Lexington Avenue, which was used and signed by the Jury on July 28th, 1925. The survey was made by Mr. Lee and the map was made by J. L. Turnbull. This map does not show the frontage on Aston Street of the parts of Lot 108 left after opening Lexington Avenue but by scale it was approximately 20 feet of the lot left on the west side. However, you will note that certain corrections were made in pencil on this map, showing that his frontage on the west side was 10.6 feet. As this map has not been used since the Jury has set out, I think that the pencil corrections were made at that time. Later surveys made for making paving assessments on Aston Street show that the part of Lot 108 on the east side of Lexington Avenue fronts 15.7 feet on Aston Street and the part of this lot on the west side fronts 10.5 feet on Aston Street.

The map said by Mr. Loughran to have been made by some one in the City Engineers office was made at least a year after Jury was on Lexington Avenue and was made to show his where sewer connections were put in to serve his property, and shows no distances or frontages of lot 108 on Aston Street.

I also attach a copy of map used by Jury in widening Aston Street. This was done before Lexington Avenue was opened. His benefits were no doubt based on a total frontage of 25[illegible].4 feet. The amount of benefits was $12500.00, or at the rate of $49.19 per foot. If 50 feet of this frontage is deducted for Lexington Avenue, the deduction would amount to $2459.50, which taken from $12500.00 would make $10,040.50

Respectfully submitted,
W. C. Hutchins,
Asst. City Engineer.

Complaint of C. E. Cooper that his lot extending thru from College to Clarence Street is now used as a street was discussed, Cooper being advised that he was entitled to use his entire lot and it was suggested to him that he have same surveyed and take it over regardless of the street.

[illegible] request for a sewer to accommodate the back end of his lot on Clarence Street was, on motion, taken under advisement, pending the advise from him as to whether or not he is willing to pay for the sewer immediately on its construction.

On motion it was ordered that a check be drawn in favor of Wm. C. McIntyre for $50.00 on the signing of the proper release releasing the city from all claims for damages on account of the personal injuries sustained by the said McIntyre on account of getting his foot caught in the elevator in the market house.

[illegible] on the recommendation of the Commissioner of Public Safety.

On motion, the following building permits were granted:

April 5 1927

To His Honor J. H. Cathey,
Sir:
We understand that our street and petition has been excepted and placed on the minute books ready for paving but it is being left over for the next administration to be paved. Now we would be glad to see the work started on the street the earliest moment possible as we are in need of a street, it is almost impossible to get out of here when it rains, and another thing that we are badly in need of is a water mane, we have not got any fire protection at all, if our house was to catch on fire it would just have to burn up, really we have not got enough water for drinking purposes, there or eleven or twelve houses on a 1 inch water line. Now if it is impossible for the street to be started at this time we would be glad to have a survey on the street to establish the street lines as several are wanting to do some fencing and other improvement.s

STATE OF NORTH CAROLINA
COUNTY OF BUNCOMBE

Personally appeared before me J. R. Quinton, who being duly sworn, deposes and says that about 6 or 8 weeks ago the Water Department cut off the water at the residence of R. M. Wells, 44 Sunset Parkway, for non-payment of water rent, and Mrs. R. M. Wells deponent on the phone and told him that Mr. Wells was in the court house busy, and if deponent would turn water back on she would have Mr. Wells come down and settle the bill.

Deponent told her he would do that, and he did, but the bill was not paid until the Water Department cut off the water again on the 8th of April.

Mr. Wells was notified every month just as we notify all other consumers.

Mr. F. L. Conner,
Com. Public Works,
City.
Dear Sir:

On Monday, April 11, I [illegible] Mr. F. L. Conner, [illegible] Parkway.

Mrs. Wells stated that they were not notified before their water was turned off or when it was turned on, and that their little boy was left [illegible] water was turned off. Also stated that there was a difference [illegible] owned by property that [illegible] have been home.

I [illegible] that the floors were [illegible] of paper, that would [illegible] tenants are moved, probable to a somewhat larger amount than the cost of plastering, drying and laundrying. [illegible] in three bedrooms is hard to estimate, but believe that after walls and ceilings have thoroughly dryed out, [illegible] can be accomplished two or three coats. The plasterer [illegible] have retained its key, this, however, cannot be surely determined until it was thoroughly dryed

Yours truly,
M. C. Webb, Jr.
Asst. City Engineer.

Mr. J. L. Cutter,
City.

Dear Sir:

I have investigation daily,herewith attached, of Judge E. M. Wells.

The water was cut off Mr. Wells house for the non-payment of his water bill. After the bill was finally paid and the water turned back on, for some reason the toilets in a lavatory, on the second floor, were left open and the house was flooded.

An examination was made of the wall, ceiling and floors of the lavatory and several pictures, some chairs, three or four pieces of furniture and a book case filled with books were saturated with water.

I have written to Mr. Cutter and am to the amount of damages [illegible] Mr. Wells has had an opportunity to [illegible] bill for the same.

Yours very truly,
J. L. Patton

Tula M. Gibbs, being duly sworn, deposes and says that she is a Clerk in the water department of the City of Asheville, that in February 1927 she answered the telephone and Mrs. E. M. Wells said she wanted to know why the water was going to be off in her home in Sunset Parkway, she learned that it was cut off for water rent. Mrs. Wells asked her, "Is Mr. Cutter mad and they did not even notify me". I told her we did not have to notify her because the water bills were past due. She asked the amount and I told her the amount plus the fine of 50 cents. She said she positively would not pay any fine, then she asked to see Mr. Lindsay, who was head of the department, she said he had cut it off once when she lived in East Asheville and he never scared her a bit. I told her he was not in the Water Department any more; that Mr. Cutter was Superintendent, so she asked to talk with him and she continued her conversation with Mr. Patton. She said she would tell Mr. Wells, who was in Court, to have him come down, but he never was home until the water was cut off last Friday.

Report of the Water Superintendent showing his investigation of the complaint of Mrs. S. S. Luther in regard to certain water pipes exposed on Talbert Avenue was presented to the Board and, on motion, adopted the Clerk being instructed to write Mrs. Luther with a copy of said report as information.

April 13, 1927

Dear Mr:

The complaint of S. S. Luther of water pipes being exposed on Talbert Avenue has been investigated. We find this is a private line built by S. S. Luther and serving eight (8) houses.

I notified Mr. Luther that until all parties had connections made we could not hold him responsible for the eight houses, but that the pipe in question will be taken care of.

Very truly yours,

At the same time this water and sewer was put in on Valola Street you will remember I had some sewer lines put in on other streets and I knew Mr. McIntyre superintended this work. The reason we had to do it in that way was that you stated to me that at that time the City did not have the funds. You will remember both on the permits for the water for this property and [illegible] street.

I hope that this information will be what you want in order to relieve Mr. H. A. [illegible] Mr. [illegible] Hall of the payments for sewer on this street.

Yours truly,

City Commissioners
Asheville, N. C.

Gentlemen:

At the request of Mr. Johnson and Mr. Allen we have estimated the cost of the following buildings:

For the sum of Three Thousand One Hundred Dollars we would be able to build in a first class manner, a combination building to act as a garage for four cars or carts, tool house and caddy house. This building to have two concrete and brick flus, concrete floor, strip composition shingles, two toilets and septic tank where requested. The building is to be thirty-two by fifty-six feet square with nine foot ceiling height, it is to be stained one coat stain and the trim is to have two coats of white exterior paint. There is to be a counter in the caddy room and we are to hook-up a buzzer with the professional room. The exterior siding is to be ten inch pine, windows are to be placed where requested. The building will be left clean and with the best of hardware, a turn-key job.

For the sum of Five Hundred and Ninty Dollars we can erect THREE SHELTER SHEDS where requested on the course. Each of these are to be about ten by twelve feet square with two built in benches and protection will be given so as to protect the golfers from a blowing rain and also to make benches in full view. These sheds will be roofed and stained as above. The supports will be placed in the ground three feet deep and beded in concrete so that no wood touches any earth. This will be a perminate and first clas job to satisfy all supervision.

We will build two toilets where requested in keeping with the other buildings and fully screened for the sum of One Hundred and Twenty five dollars/ This is for houses only and encludes no means of disposal.

We will erect tool sheds, ten by twelve feet square in keeping with the above for the sum of One Hundred and Eighty Dollars each.

We will make a price of thirty nine hundred and fifty dollars on the full job.

Yours very truly,

The following communication from the Assistant City Engineer relative th the Market Street sewer was presented to the Board and, on motion, it was ordered that this sewer be not assessed, in view of the fact that it was necessary to eliminate the condition which had been existing for many years.

May 4, 1927

Mr. F. L. Conder,
Com. Public Works,

Dear Sir
- I am enclosing herewith blueprint map of sanitary sewer constructed in Market Street between Pack Square and S.Spruce St.

The old sewer (a six inch line) was not of sufficient size or depth to take care of future developments on this section of Market Street. In addition, a stub was built at this alley between the Jackson Bldg and the Times, so that if further trouble develops in the old sewer running under the Plaza Theatre, this sewer can be diverted to the Market Street sewer.

You instructed me to build this Market Street sewer before permanent paving was put down, and I would like to know whether the cost of the new sewer can be assessed against the property. While the new sewer is on the West side of the street, and the old sewer is still in use, serving part of the East side of the street, both sides benefit, as the new sewer will keep the old sewer from becomming overloaded.

Please advise.

Very truly yours,
M. C. Hutchins,
Asst. City Engineer.

On motion the Clerk was instructed to furnish the Board with the cost of moving the houses on all streets where the property owners either refused to, or neglected to get same out of the way of improvements, in order that such expense may be charged in the office of the Tax Collector, as by law provided.

A communication from F. K. Weaver, relative to damages on Lexington Avenue was presented to the Board and, on motion of the Mayor, it was ordered that he be allowed $1500.00 in full for all claims for damages.

April 26, 1927

Mr. Frank Condor
City.

Dear Frank: Re: Brief talk of yesterday

I find it difficult to catch you at leisure, so am dropping you this note that I may call attention to the items referred to yesterday.

First: Contrary to the advise Mr. Rankin gave me, my building was moved back and completed before the jury acted on Lexington Avenue. It was necessary for me to go ahead with the work. Thefoundation and first story of my building was new. The fundation I put under the old building was stone laid in cement. In putting in my new foundation at the lower end of my building, I had to go sixteen feet in order to get solid earth. In moving back I gave up 1260 square feet. For this, the jury allowed me nothing. Though part of my building that I moved back had a much better foundation than LaBarbe's building the the front was practically as good as his, he waited for the jury to act and received, as I understand, $1500.00 damages. I took no steps to block the work, but gave hearty cooperation and while others received damages, I was charged with benefits. True, we all received benefit and where we had buildings we all had damages or should have had, and should have all faired alike. I am sure you and John will agree with me.

Second: The city had placed sewerage and water mains and [illegible] property connections, charged same to and collected from the property owners. I had and paid for five connections to my building. I recall your explaining to me that you would have to put in heavier lines to take care of the additional sewerage that would have to turn into the Lexington Avenue line. This was done for the benefit of Asheville and not for additional benefit to Lexington Avenue. I am sure you will not deem it fair to have us take the loss on this line as it was put in for the general advantage for the city. Before I could complete my buildings, and utilize this connection I had paid for they were supplemented with the larger lines. Kindly consider these matters. I am satisfied that you and John will see that I do not have to take this loss. What I have paid on this benefit change I believe you will credit me on the street paving charge and will eliminate the sewer and water charge.

Thanking you in advance for giving this due consideration and with kind regards, I am.

Very truly yours,
F. K. Weaver

A communication from the Water Superintendent relative to the complaint of S. W. Adams, 285 Montford Avenue was presented to the Board and, on motion ordered filed.

No action being taken.

April 22, 1927

Mr. F. L. Conder

Dear Sir:

After carefully examining the complaint of W. S. Adams of 285 Montford Avenue, I find that there is an open ditch in front of said house as there are holes along in bottom of ditch that are standing full of dirty water. The sanitary sewer is clear now, but has been stopped, as he says, at intervals. This ditch is a nuisance and the only way that I can see to eliminate same is to extend storm sewer which the sanitary sewer empties into when stopped.

Very truly
J. R. Quinton,
WATER SUPT.

I find recently that I, as Trustee for my brothers and sisters as well as myself, hold the title to some 1200 acres of mineral rights within the boundary of land recently condemned by the City for reservoir purposes.

No doubt, your attorneys in examining the various titles in the condemned land will run across this fact.

A report showing amount of fees collected for electrical examinations was presented to the Board and, on motion, ordered filed.

The weekly report from the Building Inspector was read to the Board and, on motion, ordered filed.

Alice Miner Devendorf, through her attorney, filed notice of appeal from the report of the jury assessing benefits and damages on account of the widening of Vermont Avenue, in the City of Asheville, and from your order approving and confirming the report of said jury, made and entered on the 25th day of May, 1927, in so far as the same relates to their lot mentioned in said report and confirmation, for that:

1. The assessment and charge attempted to be made against the said lot of land of the said Alice Miner Devendorf in the sum of Five Hundred and Fourteen and 50/100 (514.50) Dollars because of the widening of said street before appellant became the owner of said lot of land, constitutes an illegal levy and assessment in violation of the Constitution and laws of the State of North Carolina, and especially Article I, Section 17 thereof, providing that no person shall be deprived of his property but by the law of the land, and of the Constitution of the United States, and especially Article 14, Section 1 thereof, providing that no person shall be deprived of his property without due process of law, and the provisions of said Constitution and laws are invoked for the protection of appellant.

2. The appellant became the owner of said lot of land on September [illegible], prior to the attempted levy of said charge and assessment against said lot of land, and said property has not been widened since the title to said lot of land vested in the appellant, and at the time the appellant obtained title to said lot of land she was without knowledge of said alleged assessment.

3. That said Vermont Avenue was widened by the city of Asheville about the month of [illegible] 1924, according to the best information of appellant, which was subsequent to the time appellant obtained title to said lot of land, and appellant should not be charged with an assessment that should have been made, by the City of Asheville, to make such assessment, prior to the time that appellant became the owner of said lot of land, as she would have had notice of such claim on the part of the City of Asheville.

4. That said pretended assessment is not chargeable against the appellant, and if chargeable against any person, should be collected from the person through whom the appellant obtained title, the appellant having no notice of such claim on the part of the City of Asheville until long after she had acquired title to said lot of land.

5. The sum of $514.50 charged as benefits to said lot of land is unreasonable, excessive and an unfair charge against her said property.

And the said Alice Miner Devendorf requests that a complete transcript of the proceedings before you be made, to the end that the same, together with this notice of appeal, may be docketed in the Superior Court of Buncombe County for further proceedings in the cause according to law.

This the 28th day of May, 1927

You will take notice that the above-named Wilbur Devendorf and Alice Miner Devendorf hereby appeal from the report of the jury in the proceedings before you relating to the widening of Vermont Avenue, in the City of Asheville, and from your order approving and confirming the report of said jury, made and entered on the 25th day of May, 1927, in so far as the same relates to their lot mentioned in said report and confirmation, for that:

1. The assessment and charge attempted to be made against the said lot of the appellants in the sum of Five Hundred and Fourteen & 53/100 ($514.53) Dollars because of the widening of said street before appellants became the owners of said lot is illegal, oppressive and violative of the Constitution and laws of North Carolina, and especially of Article I, Section 17 thereof, providing that no person shall be deprived of his property but by the law of the land, and of the Constitution of the United States, and especially Article 14, Section 1 thereof, providing that no person shall be deprived of his property without due process of law, and that every person is entitled to the equal protection of the law, and the provisions of said Constitution and laws are invoked for the protection of appellants.

2. The appellants became the owners of said lot of land on December 4, 1925, prior to the attempted levy of said charge and assessment against said lot of land, and said street has not been widened since the title to said lot of land vested in the appellants, and at the time the appellants obtained title to said lot of land they were without knowledge of such proposed assessment.

3. The said Vermont Avenue was widened by the City of Asheville about the month of _____ 1924, according to the best information of appellants, which was several months prior to the time appellants obtained title to said lot of land, and appellants should not and cannot be chargeable with an assessment that should have been made, if the City of Asheville is entitled to make such assessment, prior to the time that appellants became the owners of said lot of land, so they would have had notice of such claim on the part of the City of Asheville.

4. The said pretended assessment is not chargeable against the appellants, and is chargeable against any person, should be collected from the person through whom the appellants obtained title, the appellants having no notice of such claim on the part of the City of Asheville until long after they have acquired title to said lot of land.

5. The sum of $514.53 charged as benefits to said lot of land is unreasonable, excessive, and an unfair charge against their said property.

And the said Wilbur Devendorf and Alice Miner Devendorf request that a complete transcript of the proceedings before you be made, to the end that the same, together with notice of appeal, may be docketed in the Superior Court of Buncombe County fo further proceedings in that court according to law.

This the 25th day of May, 1927.

Wilbur Devendorf
Alice Miner Devendorf
Appellants.

Legal service of the foregoing notice of appeal is hereby acknowledged. This the 28th day of May, 1927.

Mr. Rogers:

The complaint of D. Gross is that during heavy rains the water back thru his cellar drain into his cellar. This cellar drain is supposed to run into a catch-basin in Merrimon Avenue in front of his property. The outlet to this drain cannot be found. After careful examination and determination of the difference in elevation of the catch-basin and the floor of the cellar, I am of the opinion that the trouble is in their drain from the cellar to the street. It may be stopped with tree roots or leaves, as it also carries the down-spout drainage from their roof. The City has no responsibility as to the condition of the drain across their yard.

I have looked into the complaint of Mr. W. P. Corn of alleged damage to his property on Brownwood Avenue by reason of a storm sewer laid under the corner of his lot.

This storm sewer was laid in November, 1925, when Brownwood Avenue was being paved; to carry the street water from the street through an 18" pipe which is well below the surface of the ground. I cannot see that his property is damaged by this at all. The pipe line is at the widest point not more than 8 feet inside his lot line.

A joint meeting of the County Board of Commissioners and the City Board of Commissioners was held for the purpose of considering the lowering of the grade of Poplar Street.

Present, Mayor Gallatin Roberts, Chairman County Board of Commissioners E. M. Lyda, Messrs. L. B. Rogers and C. H. Bartlett of the City Board, W. E. Johnson and A. C. McLean of the County Board.

Mr. J. G. Stikeleather, State Highway Commissioner, stated that the Howerton Engineering Company were recommending that the West end of the tunnel be lowered ten feet more than originally planned, and that Poplar Street be graded in order to make a proper entrance to the City's end of the tunnel. He stated he expected to route Highways #10 and #20 thru the tunnel and that Poplar Street would be the direct route for Highway #10 to the City.

Mr. Robt. S. Brown stated that Poplar Street was destined to be the street of heavy traffic and recommended that the West end of the tunnel be lowered 10 feet below the original plan, making a 7% grade.

Mr. T. W. Howerton of the Howerton Engineering Company stated that he estimated the additional cost to lower the grade and lengthen the tunnel would not exceed $15,000.

On motion of Mr. E. M. Lyda, seconded by Mr. L. B. Rogers, it was ordered that Howerton Engineering Company submit an estimate to each Board of additional cost over and above the contract price before any action is taken.

On motion it was ordered that M.C. Hutchins be instructed to make a survey and map of all available information, sewer water lines, etc., to widen Poplar Street 40 feet between curbs.

On motion it was ordered that the offer of the State Engineer to cooperate with the County and City Engineers be accepted.

A communication from former Mayor John H. Cathey, relative to water rights paid to the Burnett heirs by the Town of Black Mountain, was presented to the Board and, on motion, ordered filed.

June 6, 1927

"Hon. Gallatin Roberts,
Mayor,
City of Asheville,
Asheville, N. C.

Dear Sir:

When the City condemned the North Fork Water Shed, we knew at the time that the town of Black Mountain had paid the Burnett Heirs $1,000.00 for the water rights on their land.

Rather than raise legal complications as to whether or not the City of Asheville could condemn a water right, which was required by another municipality, we entered into an agreement verbally with the Mayor of Black Mountain and its Corporation Counsel, that the City of Asheville should pay to the City of Black Mountain, provided the condemnation of the area was perfected, the sum of $1,000.00, plus six percent interest from the date the Town of Black Mountain paid out this sum to the Burnett heirs.

Very truly yours,

"John H. Cathey"

A communication from Booth and McGee, Inc., Realtors, relative to the sale of property on Flint Street to colored people was read to the board and, on motion, was ordered embodied in the minutes.

June 6, 1927.

" Honorable Mayor Roberts,
Asheville, N. C.

Dear Sir:

We understand that the property owners on Flint Street have been to you about our firm offering for sale to a negro a house and lot on the lower end of Flint Street.

We wish to advise that we are not offering for sale nor trying to sell the house in question to a negro, and that we have never practiced this kind of business, nor will we uphold same.

We have a salesman in our office that owns this house and he has assured us verbally that he will not sell same to colored people, and we assure you that if he does he will have to sever his connection with our office. We regret very much that this has come up in the way it has, and as you know the writer personally, I hope you will be able to advise the residents on Flint Street that we have absolutely nothing to do with said house.

Thanking you for your kindness.

Very truly yours,

Secretary-Treasurer

Tuesday, June 7, 1927 - 10:30 o'clock, A. M.

A joint meeting of the County Board of Commissioners and the City Board of Commissioners met for the purpose of deciding on the proposed lowering of the grade of the Beaucatcher Tunnel. Present, Mayor Gallatin Roberts, Chairman of County Board of Commissioners, E. M. Lyda, Messrs. L. B. Rogers and C. H. Bartlett of the City Board of Commissioners and Messrs. M. L. Johnson and A. C. McLean of the County Board of Commissioners.

THE HOWERTON ENGINEERING COMPANY
ESTIMATE

The Howerton Engineering Company submitted the following estimate for the lowering of the tunnel from the original plan of ten feet at the intersection of Poplar Street with Beaucatcher Road:

"To The Commissioners of City of Asheville and County of Buncombe. June 7, 1927.

Gentlemen:

The change in elevation of the western portal of Beaucatcher Tunnel necessitates some change in the quantities as originally given and will increase the cost of the project.

Lowering the original grade ten feet at the intersection of Poplar Street with Beaucatcher road will give an approach grade on Woodfin Street Extension of 3.92% and on Poplar Street of 8%. The latter grade is obtained by using a maximum fill of ten or eleven feet on Poplar Street. This change gives a rising grade in the tunnel from west to east of 0.34%.

The tunnel will be lengthened thirty feet, due partially to escape serious difficulty which would have been encountered in rebuilding the retaining walls on Mr. P. S. Henry's property and in reshaping the grounds between the house and the walls.

The increased cost will be as follows:

30 ft. of tunnel @ $420.00	$12,600.00
Increased excavation 2000 cu. yds. @ $ .75	1,500.00
	$14,100.00

We may reasonably offset this by estimating a decrease in damages of P. S. Henry's property of $2,500.00 which will leave a total of $11,500.00 additional cost.

The decrease in approach grade on Woodfin Street Extension will decrease the amount of material to be placed in the fill on that street to 25,000 cu. yds. The total excavation in the western approach and tunnel proper is 49,000 cu. yds. leaving about 20,000 cu. yds. to be placed in Poplar Street. We have estimated the amount of material necessary to widen the above street to 50 feet and provide for a maximum grade of 8%, as 27,000 cu. yds.

If you figure this amount of material for improving Poplar Street at 75¢ per cu. yd., it would represent a saving to the City of $15,000.00, which would offset the cost of lowering the grade of the tunnel as above mentioned. It would therefore seem advisable to make the proposed change on the west end of the tunnel and approach by lowering the original grade ten feet.

Respectfully submitted.

HOWERTON ENGINEERING COMPANY
"T. M. Howerton"

The Howerton Engineering Company also submitted the following estimate for the bridge:

"To the Commissioners of the City of Asheville and County of Buncombe, Asheville, N. C. June 7, 1927.

Gentlemen: In re: Beaucatcher Tunnel Bridge

In lowering the grade of the western portal of the tunnel, it becomes necessary to provide an overhead crossing for Beaucatcher Road where it crosses the tunnel highway. We have shown this on the accompanying print. The tunnel approach is to be crossed with a concrete bridge of 50-foot span with a clearance over the tunnel highway grade of 25 feet, to eliminate the possibility of obscuring the view of the tunnel portal, and to give proper clearance for traffic. The cost of this relocation of Beaucatcher Road as indicated will be:

Concrete Bridge 525 cu. yds. @ $22.00	$11,550.00
Reinforcing Steel 72000 lbs. @ .05	3,600.00
Street Excavation 5000 cu. yds. @ .75	3,750.00
Paving 1600 sq. yds. @ $2.50	4,000.00
	$23,300.00
Contingencies 10%	2,330.00
	$25,630.00

Our original plan contemplated a grade crossing 200 feet beyond the portal of the tunnel, which would eliminate the over pass entirely, until some future necessity should create a more urgent demand for it.

The maximum grade on this cross street will not exceed 6.5% and the new street will tie into the present paving of Beaucatcher Road about 150 feet above the tunnel highway crossing.

Yours very truly,
HOWERTON ENGINEERING COMPANY,
"T. M. Howerton"

On motion of Mr. L. B. Rogers, seconded by Mr. W. E. Johnson, the following motion was unanimously adopted:

Based upon the Engineer's report that it is economy to lower the West end of the tunnel ten feet lower than the plans shown at the original letting, it was ordered that the tunnel be lowered to this extent at a cost of $14,100.00, as estimated by the Engineer.

There being no further business, the meeting, on motion, adjourned.

J. E. Erbon

STATE OF NORTH CAROLINA, COUNTY OF BUNCOMBE. — IN THE SUPERIOR COURT

S. M. WHITE, ET AL, Plaintiffs
-vs-
THE CITY OF ASHEVILLE, Defendant

NOTICE OF EXCEPTION AND APPEAL FROM REPORT OF JURY

TO THE CITY COMMISSIONERS OF ASHEVILLE, NORTH CAROLINA:

You will please take notice that the above named S. M. White on behalf of himself and any other interested owners of the property hereinafter referred to, who may wish to make themselves parties, respectfully except and object to the report of the jury on the widening of Davidson Street, between College and Eagle Streets, on the East side of Davidson Street and hereby give notice of appeal from the finds and report of said jury and from the adoption by your board of said report, insofar as the same applies to and affects Lots Nos. 236 and 237, Sheet 1, Ward 1, of the City Tax Maps, as named in report of the jury dated and filed May 17, 1927 and adopted by your Board on May, 18, 1927. For that the said jury has assessed damaged to this property in the sum of only $1,200.00, whereas the said S. M. White claims and contends that the said award is inequitable, unjust, unfair and unreasonable, in that

1. That there are seven houses situated on said property and that the amount of damages awarded would be insufficient to move back and repair one of said houses and in moving back of said houses from the area proposed to be taken by said street the jury has overlooked the fact that these are frame houses and it would necessarily break down the walls and underpinning and will cost considerable money to repair the damage done by moving.

2. That the said houses could all be rented now but for the fact that the tenants were forced to vacate because of necessary work to be done in the moving of the houses, which will cause the loss of rental of property for a year or more andthe owner will be deprived of rental therefrom during said time and that the widening of said street at this point will not enhance the rental value of property and the rents will not be increased thereby and that the taking of said ten feet without paying a reasonable price for same, is unreasonable, unjust and constitutes a taking of property without compensation therefor.

3. That in proportion to the damages allowed other owners fronting on this street and similarly situate, the damage to the above mentioned property is at least $15,000.00, plus the loss of rent on the same for such period as the premises are forced to be vacated, in the sum of $200.00 per month and this petitioner respectfully prays that the jury's report be revised and modified so as to allow the owner a reasonable and fair compensation for his loss.

4. That the said S. M. White hereby gives notice of appeal from said report of jury approved by your Board and adopted May 18, 1927, and asks that a certified copy of the proceedings together with a copy of these exceptions be filed with the Clerk of the Superior Court of Buncombe County, to be placed on the Civil Issue Docket, as provided by law.

5. That this appellant asks and respectfully urges that the Board allow them damages in the sum of $15,000.00 plus the reasonable rent of houses affected, in the sum of $200.00 per month.

A letter from Howerton Engineering Company with reference to Beaucatcher Tunnel Bridge was brought before the Board and, on motion, ordered embodied in the minutes:

(Copy) June 11, 1927.

"To the Commissioners of the City of Asheville and County of Buncombe, Asheville, N. C.

In Re: Beaucatcher Tunnel - Bridge- Lowering Tunnel to Advantage of Poplar Street - Extension of Tunnel 40 feet Eastern Terminal for Benefit of Chunn's Cove Road.

Gentlemen:

Please refer to our letter of June 7, 1927, in re: Beaucatcher Tunnel Bridge, total cost $25,630.00, also our letter of same date in re: Beaucatcher Tunnel.

Lowering original grade 10 feet at the intersection of Poplar Street with College, or Beaucatcher Road, will give an approach grade on Woodfin Street extension of 3.92%, and on Poplar Street of 8%.Poplar Street grade obtained by using maximum fill of 10 feet on Poplar Street.

This change gives a rising grade from West to East thru tunnel of 0.34%, increased length of tunnel 30 feet, total cost $14,100.

Add to the foregoing: Increase in length of tunnel at Eastern portal of 40 feet and the relocation of the present Chunn's Cove Roadway for a distance of approximately 300 feet to allow said roadway to cross over and West of the Eastern tunnel portal, thus avoiding an overhead bridge to separate travel and preserve this roadway to cost as follows:

40 feet of tunnel @ $420.00 per ft.---	$16,800.00
Grading and paving relocated highway--	1,000.00
Total	$17,800.00
Credit: Decrease in portal excavation 3800 yards @ 75¢----	2,300.00
Total cost less credit ---	15,500.00
Total added cost of the tunnel project on account of these added items --	$55,230.00

Please again refer to our letter of June 7th and you will see that there is 20,000 cu. yards of earth from the tunnel to be placed in Poplar Street. This earth, on the basis of 75¢ per cubic yard amounts to $15,000.00. Should this credit be allowed, the total cost of the additional improvements will not exceed $40,230.00.

As we understand it, these additional items have been approved by your boards in joint session, and the added cost will be paid on the basis of 1/2 to the City and 1/2 to the County.

In the event you find there is a mistake in the foregoing, we would appreciate it if you would call the matter to our attention.

ST.M.Howerton"

Very truly yours,
HOWERTON ENGINEERING COMPANY

On motion, adjourned.

Mayor and Board of Commissioners,

Gentlemen:

In regard to the advertisement appearing in the Asheville Citizen of May 5, 1927, for sewer connections on my lot on Montana Avenue for assessment, I wish to protest against same. The sewer connections are not put in as surveyed. One of them was moved twenty-five or thirty feet east, on a lot which I sold to John A. Ford.

On my vacant lot on the corner of Montana and Hanover Streets, I have a sewer connection on Hanover Street and need none on Montana Street and requested that none be put there.

I beg that this plead as my appearance in the Meeting as it will be impossible for me to appear in person.

June 16, 1927.

Mr. L. B. Rogers,
Commissioner Public Works,
Asheville, N. C.

Dear Mr. Rogers:

I own five houses on Peace Street. Messrs. Kelly & Wilson are at present laying a sewer line for the City on this street in front of my property. If agreeable to the City of Asheville, Messrs. Kelly & Wilson will contract with me to make the sewer connections and extend the pipe into my property. If this can be done all at one time it will save me considerable worry, and I think I can contract it with Messrs. Kelly & Wilson for less money than it would cost me to have the City make the connections, and then for me to employ labor and lay the remainder of the pipe.

I should like permission, therefore, to contract with Messrs. Kelly & Wilson to make these sewer connections for me. As I understand it, the City of Asheville makes no profit off these matters, and it would, therefore, take just that amount of work off the City. Messrs. Kelly & Wilson, as you know, are experienced and reliable contractors and I am sure will do the work in a satisfactory manner.

I have conferred with the City Water Office and also with Mr. Hutchins with the Engineer's Office, both of whom say it will be entirely satisfactory with them if it is with you. The sewer line is now being laid, and it will be necessary for me to know tomorrow in order to have the connections made at the minimum amount of cost.

I attach hereto a sketch diagram showing the location of my property.

Very truly yours,
"J.P.Goodman"

Mr. Mason was advised that he submit in writing to the Commissioner of Public Works the full information, and that same would be acted upon.

IN RE: PREMIUM ON CONTRACTORS LIABILITY
INSURANCE AND NECESSITY ...
LIABILITY INSURANCE - NEW HIGH SCHOOL ...

Gentlemen:

In reply to your communication of the 24th. ultimo, which for some cause or other has been mislaid in my office, which accounts for the delay in answering same, I have to advise that in Article VIII, of the contract duly executed by and between the City of Asheville and the Palmer Spivey Construction Company of Charlotte, N. C., dated the 23rd. day of May, 1927, for the construction of said new High School Building, the contractor agrees to execute and deliver a contractors and employers liability policy)in the sum of twenty and thirty thousand dollars for one or more accidents, and provides that in the event such policy or policies are taken that the City must pay the cost of the premiums thereon, and that Article ?7 requires the contractor to maintain contractors liability insurance to protect the contractor from claims for damages for personal injury, including death, and that certificates of such insurance shall be filed with the City if so required, and shall also be subject to its approval for adequacy of protection. There is no provision requiring the payment of the contractors liability insurance by the City but it is done at the expense of the contractor.

In response to your request as to whether I think it is necessary to carry owners contingent liability insurance covering this project, I have to advise that Article ?8 provides that:

"The owner shall be responsible for and at its option may maintain such insurance as will protect him from his contingent liability for damages for personal injury including death, which may arise from operations under this contract," which makes the owner responsible for, but at his option, to maintain such insurance as will protect him from his contingent liability and provisions of the section hereinabove quoted

This matter was, on motion, referred to the Commissioner of Public Works.

To the Honorable Commissioners of the City of Asheville. This is to notify your honorable body that I feel that I should not be taxed or assessed the Abutment paving cost of the paving of Hanover Street East-Asheville, where it abuts my property at the intersection of Hanover and State Streets.

That the reason for said objection, is that my property has been damaged more than the paving costs of said street.

That a ten foot fill has been constructed past my home, which obliged me to raise said house at great expense. And used the fill of my lot to use in constructing said grade.

That I had to move my stable to allow placing of said fill.

That it leaves my lot by a depression because of said fill.

That the fence surrounding said lot was destroyed and covered up by aforesaid fill.

August 11, 1927

(Signed) G. M. Jones.

B. M. Lee, City Eng.

The following claim of J. A. Plow was presented to the Board and, on motion, ordered embodied in the minutes:

To the Honorable Mayor and Board of Commissioners
of the City of Asheville,
Asheville, North Carolina.

Gentlemen:

The undersigned hereby submits to your Honorable Board a claim against the City of Asheville in the amount of One Hundred and Sixty ($160.00) Dollars, said claim being based upon the following reasons:

(1) That the undersigned, J. A. Plow, purchased approximately six years ago a lot on Vermont Avenue, West Asheville, in the City of Asheville, said lot being described on the Tax Map of the Fifth Ward of the City of Asheville, Sheet No. 12, as Lot No. 22½, having a frontage on Vermont Avenue of 60 feet.

(2) That during the time that this claimant owned said lot your Honorable Board caused Vermont Avenue to be widened, and twenty feet off the front of said lot was taken for street purposes.

(3) That the said lot was originally of a depth of 170 feet, but after the said street was widened there was left only 150 feet.

(4) That this claimant is advised that an award has been made for damages to the property owners on the side of the street where this claimant's property is situated in the amount of $2.66⅔ per front foot, making a total of $160.00 to which this claimant is entitled by reason of said award, for this his said lot has a frontage of sixty feet on Vermont Avenue.

(5) That this claimant makes this special demand for his said award of $160.00 for the reason that he about three years ago sold to W. B. Helton, who later sold to H. F. Parker, the present owner; but that none of these sales included the twenty feet taken by the city for street purposes, but only included a depth of 150 feet, whereas the original lot was conveyed to this claimant with 170 feet in depth.

WHEREFORE, this claimant prays your Honorable Board that you pay to him at once the $160.00 which has been awarded by your Board for the taking of the twenty feet off of the front of the aforesaid lot.

Submitted this the 8th day of August, 1917.

WITNESS: "J. A. Plow" (SEAL)
"C. E. Blackstock"

The following claim of Annie H. Gibbs was presented to the Board and, on motion, ordered embodied in the minutes:

To the Hon. Mayor and Board of Commissioners of the
Gentlemen: City of Asheville, North Carolina

The undersigned hereby submits to your Honorable Board a claim against the City of Asheville in the amount of One Hundred and Sixty ($160.00) Dollars, said claim being based upon the following reasons:

(1) That the undersigned became the owner of a lot of land on Vermont Avenue, West Asheville, in the City of Asheville, a little more than five years ago, which tract of land or lot is known as Lot No. 1624, Sheet 12 of the Tax Map of the Fifth Ward of the City of Asheville, having a frontage on Vermont Avenue of 60 feet.

(2) That your Honorable Board, without any notice, having awarded damages on the side of the street upon which said lot is situated, and damages against the land owners on the opposite side of the street; and that said award, as the claimant is informed, amounts to $2.66 2/3 per front foot, or a total amount of $160.00 for the said lot belonging to this claimant.

(3) That said award was made because the said street was widened to a depth of twenty feet, said amount having been taken from the front of the lot in question; and that the said lot belonging to this claimant at the time the said street was widened.

(4) That this claimant makes this application for the said award of $160.00, which has already been granted by your Honorable Board, for the reason that confusion has arisen because of the fact that the claimant sold to L. F. Penland two lots in addition a year ago last winter. However, this claimant, instead of selling a lot having a depth of 155 feet (being the depth of the lots for the claimant purchased about five years ago), sold [illegible] a lot having a depth of 135 feet; for that the claimant was deprived of 20 feet off the front of this lot, and consequently sold only the remainder to L. F. Penland; and that the claimant is entitled to an award of damages for the taking of this 20 feet off of her lot by the City of Asheville.

WHEREFORE, this claimant prays your Honorable Board that the said award of $160.00 be paid to her at once.

Submitted this the 8th day of August, 1917.

Monday, August 15, 1927,....9 o'clock, A. M.

The Board of Commissioners met in regular session; Present: Mayor Roberts, Commissioners C. H. Bartlett and L. B. Rogers. The minutes of the previous meeting were read and approved.

Miss Fennent appeared before the Board in regard to building permit for the construction of the Filling Station at 102 Montford Avenue, which matter was referred to the Building Inspector, Clemant, and Supt. of Buildings, Johnson, for report as to whether or not this would be a menace to school children at Montford School and to the community in general on account of the fire hazard; (it having been reported that the Filling Station was to use a frame house at the corner of Montford and Courtland Avennes for the storing of oil). They reported back to the Board that they had made an investigation and found that it was not planned to use this frame house for the storing of oil, but that one room was to be used as an office and that there might be a few tires kept in this room. They stated that they did not see where it would be either a menace to the school children or a fire hazard.

In the absence of John C. Arbogast, who is out of the city, and John P. Anderson, the parties protesting against this permit being granted, Attorney James Howell appeared before the Board and stated that he felt the Board should hear Mr. Anderson before they tood final action, therefore, it was moved that this matter be held over until Tuesday morning, August 16th, when Mr. Anderson would be heard further in the matter.

Mr. J. A. Clark, 169 Hudson Street, appeared before the Board and stated that he had been assessed $47.50 for sewer connections on Spring Street, and in view of the fact that he was already connected on Hudson Street the Spring Street sewer did not benefit his property in any way.

This matter was, on motion, referred to the Commissioner of Public Works and the City Engineer for report.

Mamie Stewart appeared before the Board and stated that a dog belonging to her brother, Bubler Sheldon, had been shot and killed by some policeman. She stated that she did not see the dog killed nor did she know who had done it, but her neighbor had seen the dog killed.

The Board informed her that they could not go into the matter unless they were given more information.

W. M. Rochester appeared before the Board and requested a free license to peddle; he having received the endorsement of some of the good citizens of the City of Asheville.

It was moved that he be granted this license under the direction of the Health Department and at the pleasure of the Board.

Mr. E. E. Brown appeared before the Board and presented a petition from citizens and tax payers of the City of Asheville, owning property on the west side of Oak Street, requesting the Board to lay a cement sidewalk.

On recommendation of Commissioner of Public Safety it was moved that the appointment of Bruce Lane as a special policeman of the City of Asheville, be revoked.

Mayor Roberts presented a letter from McLean & Stacy, Attorneys at Law, Lumberton, N. C., in which there was requested a refund in the amount of $900.00 paid the City of Asheville on July 23, for David Pender Grocery Company; same being for special license tax on chain stores in the City of Asheville.

This matter was, on motion, referred to the Corporation Counsel for his advice in the matter.

Commissioner of Public Works submitted deeds from Thomas Williams and wife, Mary Williams, and James S. Forney and wife, Mae Helen Forney deeding a right-of-way for a sewer through and over the property lying on the Southern margin of Wharton Street. This matter was, on motion, referred back to Mr. Fulton with the suggestion that he take this matter up with the Corporation Counsel and see whether or not it will be necessary to obtain a petition for this proposed change.

Mr. W. B. Owens, 215 Sulphur Springs Road, appeared before the Board and asked whether or not it would be possible to pro-rate the paving assessment against his property on Belmont Avenue into three parts - he owning three lots on this street which adjoin each other, this segregation being necessary on account of a refinancing of his mortgage.

This matter was, on motion, referred to the Commissioner of Public Works.

Mr. J. B. Anderson, Attorney at Law, was heard in the matter of permit for a Filling Station at 102 Montford Avenue. He again protested against the building permit for this Filling Station at this location.

A tabulation of bids received on the French Broad River Crossing was submitted as follows:

R. C. Stevens	$21,445.50
Kelly-Wilson Co.	25,544.20
Tucker-Laxton	27,556.50

On motion, it was moved that all bids be rejected.

A tabulation of the bids for heating Park Avenue School shows the following:

CONTRACTOR	As Per Plans & Specifications	Alternate
Pumford & Pope	$4,800.00	$5,000.00
Sluder Brothers	6,000.00	6,300.00
Union Plumbing	5,434.00	5,734.00
F. Smith	-	-
Pickard & Company	4,760.00	5,000.00
Reliance Plumbing & Heating	6,980.00	7,275.00

Pickard and Company, being the lowest bidders, their bid being $4,760.00 as per plans and specifications and $5,000.00 including the alternate was awarded the contract.

...MISSION HOSPITAL....

Mrs. Wm. Redwood and Mrs. Julian Woodcock appeared before the Board and asked that consideration be given to the cost of the City's patients at the Mission Hospital; that the amount alloted by the old Board was not sufficient, and that from the annual audit report they found they were losing money on the City's patients.

This matter was, on motion, referred to the Mayor for consideration.

File No. 14

A tabulation of bids on lumber for the Football Stadium show the following:

	Short Leaf	Long Leaf
Rutherford & Atkinson	$4,392.10	$5,284.24
Galliher Brothers	4,392.10	5,530.31
Citizens Lumber Company	4,392.10	6,053.99
RicHard P. Baer & Company (Spruce)	4,807.88	

It was found that the proposal and specification as submitted by the Citizens Lumber Company showed an error in listing group No. 1 - the dimensions being incorrectly shown as 2x8x16 instead of 4x8x16. For this reason all three bidders bidding on this commodity bid at the rate of $32.00 a thousand, or a lump sum bid of $4,392.10.

On motion, it was moved that the contract be awarded to the three bidders, the quantity to be divided among each pro-rata.

V. and Pern Bridges in the County of Buncombe, where anthrax had been contracted by Dr. Stowe, which was a serious menace to the public health of the citizens of the City of Asheville and the County of Buncombe due to the fact that a spread of the deadly germ, Anthrax, through the milk supply in the City of Asheville would prove a detriment to the health and public safety of the citizens of the City of Asheville, and the Mayor presented the following signed report:

TO THE HONORABLE BOARD OF COMMISSIONERS: THE COUNTY OF BUNCOMBE AND THE CITY OF ASHEVILLE:

We, the undersigned State Veterinarian, the Veterinarian for the City of Asheville, the Health Officer for the County of Buncombe, and the Bacteriologist for the City of Asheville, respectfully report to you that within the last ten days a death of a human being had occurred in the County of Buncombe from poisoning produced by an Anthrax germ, and that in our opinion, said death was caused from a cow poisoned with anthrax, located on the farm of C. V. and Pern Bridges in the County of Buncombe, and that there is now every indication that the dairy herd of said Bridges is infected with anthrax, which in our opinion constitutes a serious menace to the Public Health, and we, therefore, recommend that the said herd of dairy cattle, including milch cows, calves and bull be killed, and the carcasses completely destroyed by fire, and that if, in the opinion of the State Veterinarian, that any head should be found to be free from the disease germs, but the same have been exposed thereto.

George Self, Special Agent, having been unable to reach an agreement with property owners on account of widening Poplar Street from Valley Street to College Street, on motion, it was decided that the Mayor issue his writ from the Jury.

August 26, 1927.

Hon. Mayor and Board
of City Commissioners,
City of Asheville, N. C.

Gentlemen:

I am unable to reach agreement with property owners on account of widening Poplar Street from Valley Street to College Street.

Yours truly,
G. W. Self

The claim of John H. Brook for damages on account of paving of State Street was referred in the minutes and referred to the Commissioner of Public Works for report.

To Honorable Mayor and City Commissioners of the
City of Asheville, North Carolina.

I beg to submit the following report, and request in the matter of paving State Street, in Asheville, formerly known as West Asheville, to wit:

In front of my property fronting on State Street the City has paved, about 672 front feet. In doing this paving the City has taken off my property, first encroaching the frontage an average of about 10 feet all along the same. Where the property had the narrowest width, was where the City dipped away the largest amount, thereby greatly damaging the property.

The banks on this property are now an average from 10 to 12 feet high, leaving absolutely no driveways or means of entering upon said lands and property from the street.

All the dirt from said excavation was hauled away and placed on property of other owners, filling up yards and lawns, although I requested that I be allowed to use some of it to fill in my own lots, but this was refused.

The excavating on the property of the undersigned was made at a greater depth into the property, than was first surveyed and agreed to be graded.

After paving the same, sidewalk was too narrow, and city then took about another foot from my property.

By reason of the above matters, the undersigned has been damaged in the amount of $2,500.00.

Wherefore the undersigned asks that he be reimbursed on account of said damages in the sum of $2500.

Respectfully submitted

R. J. Davis

Mr. Commissioner: Nov 26th 1927.

On the recommendation of the Committee on Police, Lewis Rogers was appointed Traffic Policeman, to serve without pay.

On the recommendation of the Committee on Police, J. D. Dixon was appointed Special Policeman for the City of Asheville without pay.

A communication from the Corporation Counsel in regard to the storm sewer on State Street, request of Mrs. E. B. Sullivan et al was presented to the Board, and is embodied in the minutes:

August 29, 1927.

The Honorable Mayor-Commissioner
and Board of Commissioners of the
City of Asheville
Asheville, N. C.

RE: STORM SEWER ON STATE STREET,

Gentlemen:

In response to your communication of the 25th inst. that Mrs. E. B. Sullivan, representing herself and other property owners, has appeared before the Board requesting that the property owners against whom an assessment was made for the sidewalk on State Street be allowed the privilege of joining in the construction of other property owners within the time limit fixed by law, I beg to advise that I am of the opinion that neither the Board of Commissioners or a Commissioner has any authority under the law to waive the time limit for petition on public improvement matters such as this, as fixed by the Charter or by other statute as an appeal is a privilege granted by statute, to be exercised the same and not a matter of right and that any effort on the part of the Board of Commissioners or any commissioner to waive the statutory limit allowed, is in violation of the inhibition imposed by the Charter and statutes.

However, if the Board desires to adjust this matter with Mrs. Sullivan or any other property owner interested, I think it has this inherent right as vested in the Board at all times.

Very respectfully,

Geo Pennell

Corporation Counsel.
